

# Public support matters...

... to make entrepreneurship more accessible and attractive for women.

## Our Goal

Achieve societal changes to facilitate the access of women to entrepreneurship.

## Our mission

- Identifying **government institutions that promote gender equality in entrepreneurship** and determine best practices.
- Have an **overview of policies, initiatives and distribution of funding**, intended to promote women in entrepreneurship.

## Status Quo

We are developing a database with institutions (government, public, academia and NGOs) that promote gender equality in entrepreneurship, on a federal and cantonal level. Currently, we have analyzed 33 organizations and need support to collect more data.

## Gaps & Opportunities

The group already identified 33 entities, that are spread over 17 cantons, covering 65% of Switzerland. From the identified entities, we looked which ones already allocate funding for women or gender-related initiatives:

## Team Members & Roles

### Patricia M. Montesinos

Task Force Leader, President  
FE+MALE Think Tank

### Daniela Prado Zumthor

Co-founder POWHER awards

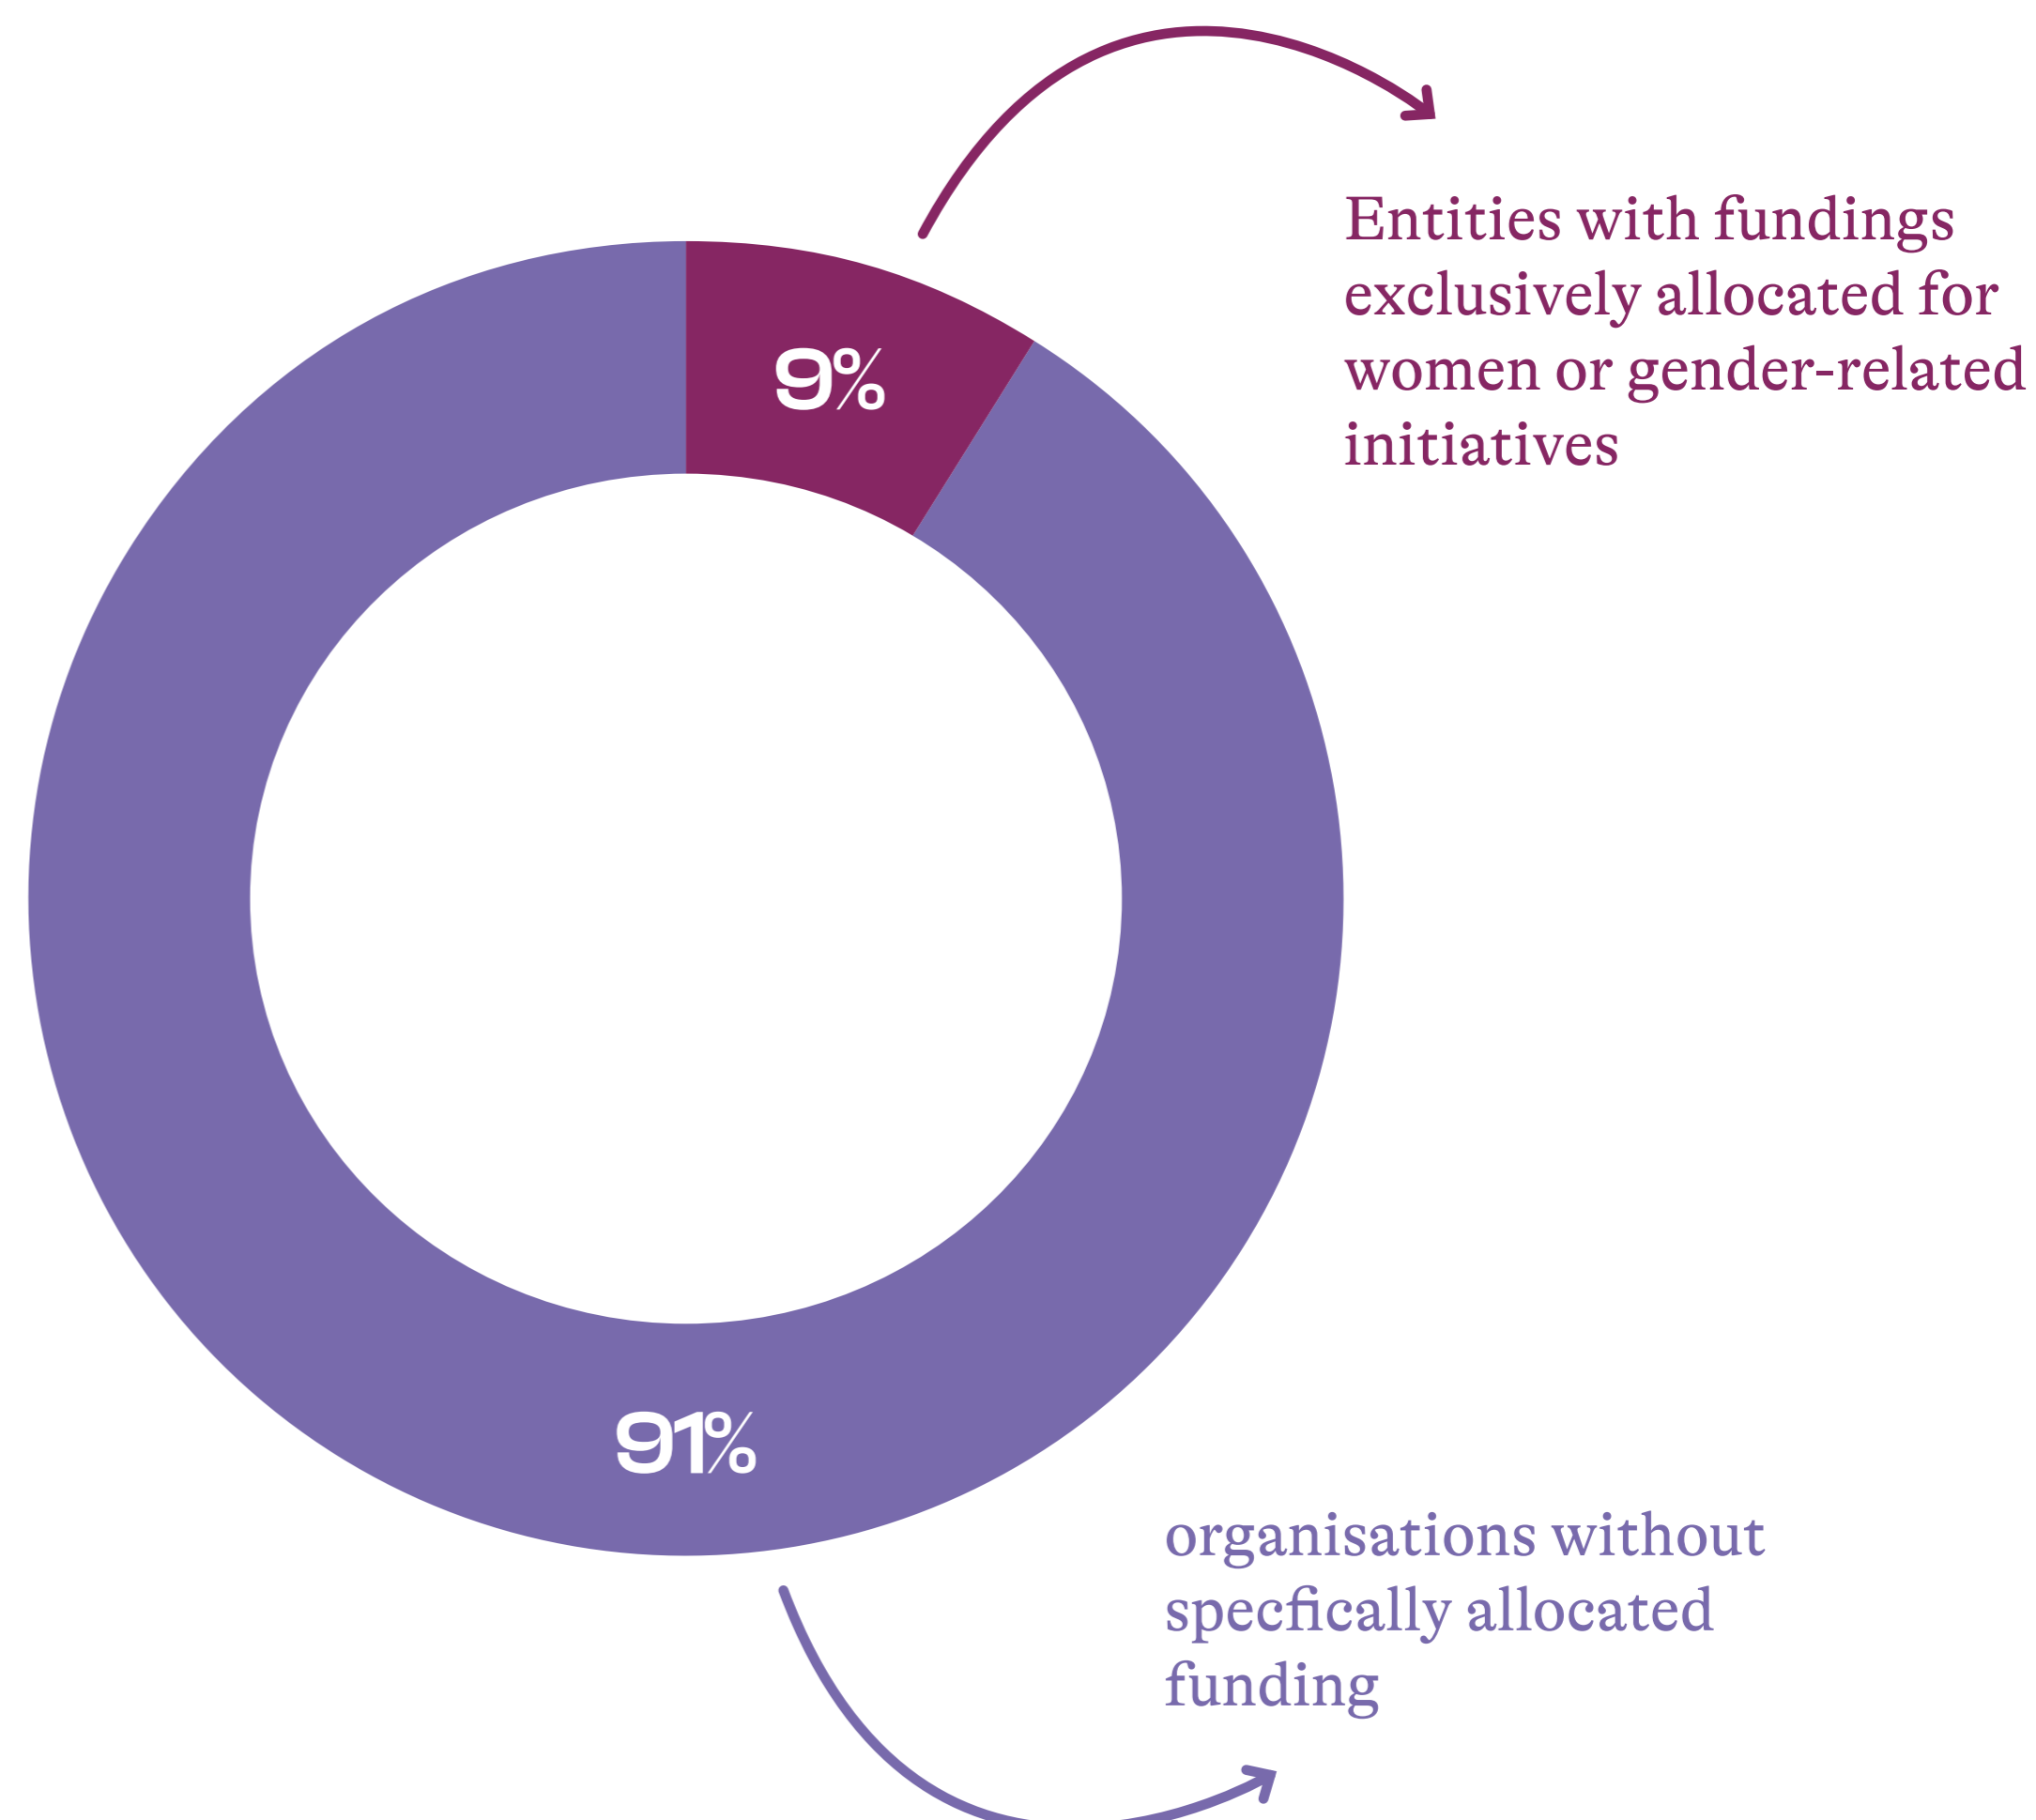

### Elsa Callini

Startup Advisor and Lead "Women who startup" at University of Bern

### Therese Schmutz

Lead Femspin, Research  
Scientist at FHNW

## Want to contribute to our mission?

### Submit contacts

Help us to collect more data by submitting institutions and contacts that you know that promote gender diversity in entrepreneurship in Switzerland.

### Join our working group

As part of the working group, you will gain access to the database and get a comprehensive overview of the support opportunities offered by institutions.
